

Partnership Agreement

Scarborough Teaching Alliance focuses its work on improving outcomes for all young people in the town and surrounding areas. Its aim is to achieve this through emphasising the characteristics of effective learning and building on the positive work that schools are already engaged in within their communities.

Our Values:

A commitment to apply the characteristics of effective learning to all aspects of our work, based on a belief that learning is a lifelong process involving

Engagement and high levels of involvement

Motivation and resilience in the face of challenge and difficulty

Thinking including creativity and critical reflection

Our Vision:

To work in purposeful collaboration to improve learning for all our children

To establish and support a culture of reflective practice, drawing on evidence and research into learning and pedagogy.

To facilitate the sharing of experience and expertise and the creation of opportunities for professional learning at all levels.

To offer opportunities for schools to work together and share knowledge about the needs of children in our community.

To promote the development of leadership skills throughout the education community.

To offer bespoke training and support that meets the needs of all our schools, values the staff that work in them, and makes the most of the talent within our schools.

To take professional responsibility for shaping future developments in education at local, regional and national level.

To create opportunities to work cross-phase – to make transitions for all our children as positive as possible.

To ensure that staff working in early years, special, primary and secondary schools understand one another's roles and work in mutually beneficial ways.

ENGAGEMENT

MOTIVATION

THINKING

Our work:

Scarborough Teaching Alliance is engaged in the following areas of work:

- Initial Teacher Education
- Continuing/Joint Professional Development
- School-to-school support
- Leadership development and talent-management
- The designation and deployment of specialist leaders of education/ local leaders of education
- Research and development

Partner schools are expected to contribute to the collective endeavour according to their capacity and needs, and on the understanding that these may change over time.

Membership fee of £100 gives access for up to 2 members of staff at each network event (£10 per additional place) .
